

## RESOURCE SOURCE LIMITED

Resource Search Limited's primary focus is to provide quality cutting and drilling services for infra-structure projects within Australasia and the South Pacific region.

The company's initial role of providing standard concrete sawing and drilling on construction projects has expanded into the area of bridge demolition and rock sawing.

Resource Search is committed to providing specialised innovative solutions for our clients, yet maintaining strict safety and environmental standards.

## RESOURCE SEARCH A PREFERRED SUPPLIER

We are privileged to be a preferred supplier to the region's foremost construction companies and have participated in the following prestigious roading and infra-structure projects:

- Project Manukau
- Freeflow – Grafton Gully/Khyber Pass Viaduct
- Central Motorway Junction (Spaghetti Junction)
- Northern Busway Project
- Northern Gateway – Johnstone's Hill Tunnel
- Tauranga Harbour Link
